ANUP KUMAR

FOUNDER & DIRECTOR

PG in Business Analytics & Business Intelligence, Data Science & Machine Learning, Lean Six Sigma Black Belt, ISO Lead Auditor

Customer Success & Business Value Service Expert

A Customer Experience enthusiast with 20 years of experience in Banking, Telecom, Contact Center, Supply Chain, Logistic, ecommerce, Education space. Transforming business processes from 'Reactive to Predictive and Proactive mode. Expertise in applying Lean, Six Sigma, Machine Learning, Artificial Intelligence, PDCA, ISO 9001 methodologies and tools. Excellent understanding of work culture, customer needs and markets of Africa and India.

WE ARE SMALL IN SIZE BUT STRONG IN CUSTOMER EXPERIENCE

"Unconditional Customer Experience " means zero hidden terms & conditions. 'Customer Segmentation' should be done on basis of needs and budgets, but 'Customer Sentiment' should be purely based on value for money. Let your customers reach you based on 'Unconditional Customer Experience' delivered and not based on extensive advertisements. Create a sustainable growth model and this model has no shortcut. ASBC is small but committed to remain strong towards 'Unconditional Customer Experience'.

Upskilling and growth should be gradual but sustainable. We believe strongly in signing a 'TRUST' and not a 'CONTRACT' with our customers, clients and learners. We are human beings and errors are bound to happen. We learn from the experience of our customers. "

EXPECTED BENEFITS

FOLLOW STAGES OF LEARNING

LEARNING WITH SIMILAR GROUPS

1 IN-DEPTH UNDERSTANDING OF DATA ENGINEERING

Maximum focus on exploratory data analysis.

2 TEAM BUILDING

Group Assignments will create an environment of team work and leadership

3 AHEAD OF YOUR ROLE AND PEERS

Your predictive approach, understanding of data and business report writing would keep

4 MEETING INDUSTRY EXPERTS

Experts connect the dots between learners and industries

5 CREATING ACCURATE SOLUTION

Machine Learning, AI and Exploratory Data Analysis will enable to challenge your own models

6 SHIFTING FROM REACTIVE TO PREDICTIVE ANALYTICS

Data Science will switch the skill set from reactive approach to predictive and prescriptive approach

POCKETS UNAFFECTED: *You are expected to compete with people who spend approx. USD 7000 for this program*
